## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 1 line 24, the limitation "pivoting disc (3)" has been changed to read "pivoting disc (5)" as it was previously referred to in line 16. Also, in claim 2 lines 3-4, there is a lack of antecedent basis for the limitation "the axis of rotation (11)" and has therefore been changed to "an axis of rotation (11)."

### ***Allowable Subject Matter***

2. Claims 1-4 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach in combination with the other limitations of the independent claim the axially extending recess receiving the driver and being provided at its inside facing the machine shaft with a cavity, which is in communication with a bore forming a discharge passage extending through the machine shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3746

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
